

Data Collection and Preprocessing Phase

Date	12 August 2026
Project Title	AI Career Pulse: Decoding the Job Market

Data Collection Plan & Raw Data Sources Identification

Section	Details
Project Overview	AI Career Pulse: Decoding the Job Market analyzes AI job-market data using Tableau to help students and freshers understand job demand, salaries, skills, experience, locations, industries, and career opportunities.
Data Collection Plan	The project uses the AI job-market dataset provided for the project. The dataset will be used as the raw source for exploration, quality assessment, preprocessing, and subsequent Tableau analysis.
Raw Data Sources Identified	One raw dataset has been identified and used for the project: the provided AI job-market dataset containing 1,500 records and 25 fields. The source location/URL was not specified in the available project material, so no URL has been invented.

Raw Data Sources

Source	Name	Description	Location/URL	Format	Size
Dataset 1	AI Job-Market Dataset	Raw dataset containing AI job-market records and fields related to roles, salaries, skills, experience, locations, demand and other job-market indicators.	https://drive.google.com/file/d/18rWhaGZbwtkOa65T4ti7aUuof2LQQZvq/view?usp=sharing	CSV	1,500 records / 25 fields
